## About me

*My name is Mustafa and I come from Egypt.*

*My experience in crafting is quite short and I have not created anything for a while before the workshops. I decided to participate in the project to help my wellbeing and to fill in my time with creativity.*

# My Products

My adventure with craft started in the childhood. When I was younger, we used to make the lanterns called Fanous. You can make Fanous from various materials, we decided to use the wooden framework and sheets of colourful plastic, sometimes plastic bags. Apart from that I created many other products at school. While taking part in recent workshops I enjoyed making a gift box from paper, it was not easy, but I managed to create it in the end.

## My Story

*As previously mentioned I started crafting in childhood, when I was still at school. It helped me to decide what I would like to do in a future. Now I am planning on becoming an interior designer.*
