About me

*I come from Iraq.
I believe practicing what I
already know and
acquiring new skills will be
useful for my in my later
life.*

*I aim to create my own
clothes to help people in
need.*

My Services

- *I learned the technical part in the first classes (how to use the sewing machine, different equipment needed and some tips 7 tricks on how to use the machine).*
- *Later, I started working with the sewing machine. Initially some trials and then started my creations.*

My Story

I am ambitious and I am dreaming of a career in the fashion industry, I want to be a designer for big designers and fashion labels.

I can combine modern design with traditional forms from my country.

I am interested to continue with a designing course and working as an apprentice in a famous Greek designer that she knows my work and also, I want to create a line of clothes for poor people that will be ecological and fair trade.

References

She participated in all activities and enjoyed especially the jewellery workshops, as she learned techniques she had no idea of. Additionally, through this project, she managed to get to know the rest of the girls and socialize.
